ELECTRICIA

The Secret of Sing Sing Prison's Death House Revealed

Presented for the first time to the American public in the form of a highly interesting and instructive exhibition.

A perfect reproduction of the Death Chamber at Sing Sing Prison and the Death Chair. The grim instrument by which the state of New York inflicts the Death Penalty on the convicted Murderer.

To make the exhibition thoroughly realistic, Prof. Campbell, assisted by

MLLE. ELECTRICIA

The Queen of Electricity

Introduces

A Real Electrocution

but without any of the horrors of the death chamber, as the subject does not get killed. Mlle. Electricia is seated in the death chair and all the details of its workings are shown and explained, how the body, feet, arms and hands are fastened and how the electric connections are made. Mlle. Electricia is then fastened in the death chair and receives the same shock by electricity that is given to those electrocuted at Sing Sing, yet she sits there and smiles at her auditors. To prove that the vast electric force is flowing through her person, electric sparks over an inch long come from any one of her fingers, from the flesh of the back of her hand, her cheeks, her clothing, and through the leather of her shoes. To prove how destructive the current in her system is, she lights gas with the sparks that come from the tips of her fingers. This strange, weird, amazing and novel performance will delight old and young alike.

Weather Strips

Are a good thing to put around your doors and windows. They are simple to put on; any one can do it.

Narrow Strips for sides and top cost 2c per foot,

Wide Strips for bottom 3c per foot

(In either felt or rubber)

Get ready for winter now. Ask to see our Storm Window Eyes.

C. W. AVERILL & CO.,

81 North Main Street,

Barre, Vermont.

For Lovers of Good Coffee

For use on Any Stove.

THE "Universal" Percolator excels all other ways of making coffee because the percolation is completed before the water boils.

While the water is heating, it is continually pumped up over the ground coffee in the top, percolating down through it into the pot again.

Coffee made in the "Universal" is easily known by its delicious aroma, fine flavor, the absence of the bitter taste caused by boiling, and by the enjoyment with which those can drink it who cannot drink coffee made in any other way.

If you want to know what Perfect Coffee is like try the "Universal."
